

Dished Turntable

The dished turntables are used wherever product accumulation after it exits wrapping and bagging machinery is required. For example-

- Horizontal Baggers. Bags of (tortillas) produced on an Ilapak, Doboy, UBE, or other horizontal bagger are accumulated for manual case packing.
- VFFS baggers. Dished turntables are used in combination with an inclined flighted conveyor to accumulate products discharging out of a vertical form fill and seal machine. Products can include chips, cheese

Specifications

Top:	56 inch diameter 304 stainless steel 1 inch to 4 inch tall lip
Belt Widths:	As necessary
Frame:	1 1/2" square stainless steel tubing
Speed:	20 revolutions per minute
Bearings:	1 inch precision bearings
Drive Motor:	1/3 horsepower
Drive Shaft:	1" dia. 303 stainless steel
Elevation:	34" to 36" to bottom of turntable
Electrical Controls:	See Options

Optional Equipment

Drives

- ◆ 1/2 HP
- ◆ Voltage
 - ◆ 110 Volts, 1 phase
 - ◆ 230/460 Volts, 3 phase
 - ◆ 90 Volts DC
- ◆ Duty
 - ◆ TEFC
 - ◆ Wash down
 - ◆ Stainless Steel
 - ◆ Inverter Duty
 - ◆ Explosion proof

Electrical Controls

- ◆ Manual Start/Stop Pushbutton Switch
- ◆ Magnetic Starter
- ◆ IEC Starter
- ◆ Variable Frequency Drive
- ◆ DC Speed Controller

Supports

- ◆ Locking Swivel Casters
- ◆ Adjustable feet
